Redondo Beach, CA 90277

Dear Mr. Grgas,

Thank you for attending the meeting of the North Redondo Beach Business Association and for answering our questions regarding the economic development of our area. It pleases me to inform you that the NRBBA strongly encourages and supports business growth and development of the economic base of Redondo Beach. We feel that economic development is critical to the overall development of the City of Redondo Beach. A well established economic base would ensure provision of services needed by the people who live and work in Redondo Beach.

We support the proposed development and expansion of the South Bay Galleria project, as well as redevelopment associated with the Galleria project. We think that it will make a solid component of the Redondo Beach economy even stronger than it was. We look forward to the benefits from such expansion and redevelopment.

Cordially yours,

Ernie O'Dell
